## International Schools in Yemen

### Sana'a International School

Sana'a International School is an [international school](#) on the edge of the city of [Sana'a, Yemen](#). It is a nonprofit organization founded in 1971. It provides an English language education, primarily to the children of embassy and United Nations personnel and international workers such as oil and gas businesses. It also educates many Yemeni students planning to enter western universities. The school teaches pre-school – Grade 12 levels. As of 2010 it has a total enrollment of some 170 students from over 20 nationalities.

The spacious, purpose built facility incorporates traditional Yemeni architectural features, and is surrounded by farmland and mountains. The library and media center are in the heart of the school, and provide access directly to and from the main classrooms. This facility is supplemented by science laboratories, language classrooms, an arts room, a state of the art computer lab, gymnasium and performance room. The exterior sports facilities provide opportunities for soccer, softball, tennis, basketball, track and field, orienteering, climbing, and archery. The school makes its sporting facilities available to local schools by hosting various sporting events throughout the year.

In addition to an academic program the school runs a varied selection of field trips and excursions. These include yearly visits to Bab Al Mandab to observe the migration of raptors from Siberia to Africa, camping expeditions to the island of Socotra, international trips of both cultural and sporting natures, and many local trips.

[Staff retention](#) is well above average for an international school, with SIS teachers having an average tenure of more than 7 years. SIS graduates are routinely accepted at top universities in North America, Europe, and the Middle East. In recent years one in three graduates heading to the USA have been offered scholarships in ivy league universities.

Sana'a International School is the only accredited school in the whole of Yemen and has been accredited by the US-based [Middle States Association of Colleges and Schools](#) since 1983. Sana'a International School is part of [Quality Schools International](#).

### Sana'a British School

The Sana'a British School serves the needs of local and expatriate families looking for a British-based education. The British National Curriculum is offered from Nursery through Year 9 with pupils following the Foundation Stage and Key Stages 1, 2, and 3. Pupils are regularly assessed against the targets and standards of the British Curriculum. The results of these assessments are reported to parents several times during the academic year. In the high school, the syllabuses of Cambridge's International General Certificate of Secondary Education (IGCSE) are taught. Students sit for IGCSE examinations at the end of Year 11. The IGCSE is excellent preparation for further study at the college and/or university level. Currently on the roll are 190 pupils from age 2 through 17. SBS teachers are recruited overseas and locally. Classroom and subject teachers are from the UK, the USA, and Canada. All are trained and experienced in the curriculum they teach. Some specialist teachers, Arabic language for example, are hired locally. SBS offers a full range of after school activities ranging from arts and crafts to swimming to sports teams. The academic year begins in late August and ends in late June. Pupils are admitted at any time during the year.

### Yemen Modern School

The Yemen Modern School attempts to create a superior academic environment for K - 12 students. We prepare our students for university level studies in the US, Britain and other European countries as well as various American and International universities throughout the Middle East.

The Yemen Modern School continues to improve its academic excellence. We at the Yemen Modern School hope that all of our students will benefit from our academic superiority
